

## **PZM Sanitary Regulations – speedway competitions**

### **Calendar of launching the competitions of PGE Extra League:**

**8.05 - 22.05** – for competitors and mechanics coming from abroad: the beginning of obligatory 14-day long quarantine for the riders in the place of stay of riders and mechanics staying in Poland beginning of 14 day long isolation involving withholding to perform unnecessary activities outside the place of residence and staying at the indicated address – current observation of health of the riders and mechanics – referring earlier to tests in case of suspicions – medical form filled in everyday and analysed by PZM Medical Team.

**24.05 - 27.05** – performing tests of riders, mechanics and training teams and function and official persons of the PZM and the club at the cost of the managing entity and clubs.

**29.05** – renewal of individual and group trainings taking into account the Sanitary Regulations.

**12.06** – start of the competitions of PGE Extra League.

### **Principles connected with commencing and conducting meetings:**

1. In case of a suspicion of an infection on the basis of the clinical symptoms of a health condition of any member of the training team the immediate isolation takes place and reporting to the proper body; hospital or poviaste station of SANEPID and conduct in accordance with the recommendation of the body (including full epidemiological interview and principles of isolation).
2. In the situation of a positive test for the presence of coronavirus such a person is excluded from the participation in further competitions until being healthy confirmed with a test.
3. Introducing monitoring of a health condition of riders directed to recognising the symptoms of being infected with a coronavirus 2019-nCoV by means of everyday filling in the form of disease symptoms taking into account, inter alia, reporting temperature in morning and evening hours, difficulty in breathing (e.g. cough, short of breath, cold), diarrhea, muscle pains, sleep disorders, conjunctivitis, smell and taste disorder, rash, effusions on feet - the form pattern constitutes the attachment to the regulations.
4. Introducing an obligation to test the temperature of the persons entering the pits during trainings and competitions by the Sanitary Commissioner or another authorized persons by the club. The persons with a temperature higher than 38 Celsius degree may not enter the machine park and participate in the training or competitions. In such a situation, the test should be repeated three times in the distance of 15 minutes in time. The decision of excluding a person from participation in competitions is made by the referee of the competitions.

### **The managing entity is entitled in particular to:**

1. demand to have the form of medical assessment filled in in connection with a risk of being infected with coronavirus 2019-nCoV by each person who is to participate in meetings or trainings in any nature,
2. directing for tests the persons referred to in point 1,
3. directing for home isolation the persons referred to in point 1,
4. issuing all decisions connected with epidemiological safety of meetings,
5. excluding from participation in meetings and trainings each person in connection with a risk of being infected with coronavirus 2019-nCoV,
6. issuing and withdrawing the consent for participation by each person in meetings or trainings in connection with a risk of being infected with a coronavirus 2019-nCoV,
7. demand to have the address of stay provided of each person who is to participate in meetings or trainings,
8. make binding interpretation of provisions of these regulations,
9. make all decisions on matters not settled in the regulations.

### **Obligations of clubs participating in competitions:**

1. providing the managing entity with all information on health condition of riders, mechanics and club officials in connection with a risk of being infected with a coronavirus 2019-nCoV,
2. appointing the Sanitary Commissioner,
3. performing provisions of the Sanitary Regulations,
4. performing unified marking of the zones in the facility in accordance with the SE guidelines,
5. training the persons working and cooperating with the club in the scope of basic principles of epidemiological safety during holding the competitions and trainings,
6. monitoring and informing the managing entity on health of club participants and coworkers of the club in connection with a risk of being infected with a coronavirus 2019-nCoV,
7. taking care so that the form of medical assessment in connection with a risk of being infected with a coronavirus 2019-nCoV was sent by the riders of the club staff and their mechanics or other persons upon the demand of the managing entity,
8. assuring the disposable gloves and masks for all persons participating in the meeting,
9. transferring immediately to the managing entity the information on referring to the quarantine or isolation, riders of staff of the club and their mechanics, workers or coworkers of the club by proper state sanitary authorities,
10. assuring thermometers for measuring temperature at the entrance to the pits before competitions and trainings,
11. performing measurement of temperature at the entrance to the pits before competitions and trainings,
12. assuring for the foreign riders the accommodation in Poland for the duration of obligatory quarantine.

### **Obligations of riders participating in the meetings:**

1. complying with the provisions of these regulations and state recommendations concerning staying in public places,
2. providing upon demand of the managing entity or the club the place of stay in Poland during the season,
3. staying in the indicated place in Poland during the obligatory quarantine until performing test for the presence of coronavirus,
4. transferring to the club and the managing entity immediately the information on referring to the quarantine or isolation by the proper sanitary authorities (also in relation to the mechanic),
5. subordinating to the order to be referred to home isolation by the managing entity (also in relation to the mechanic),
6. subordinating to the order to be referred to tests for the presence of coronavirus by the managing entity (also in relation to the mechanic),
7. refraining from leaving the territory of Poland in the time when the quarantine is obligatory in its territory and also in the situation when in the target country of the travel there is quarantine applicable after entering the country,
8. everyday until recall, sending to the managing entity and the club by means of the Sanitary Commissioner the form of medical assessment in connection with a risk of being infected with a coronavirus 2019-nCoV,
9. indication of mechanics who will service him at the competition and assuring that they will comply with the principles of conduct established in these regulations in connection with the risk of being infected with coronavirus 2019-nCoV,
10. refraining between the matches and trainings from any activities in large groups of persons, which is favorable for contact with coronavirus 2019-nCoV,
11. undergoing by the rider (including mechanics or persons from the rider's team) the cyclical tests for the presence of coronavirus 2019-nCoV (from Wednesday 29.07.2020 every two weeks) – at the cost of the club with genetic method, PCR technique,
12. in case of each trip of the rider (also mechanics or persons from the rider's team) from Poland including for the competitions, during the season, after the return the rider (also mechanics or persons from the rider's team) must at the earliest on Wednesday and at the latest on 48 hours before the competitions of PGE Ekstraliga undergo the tests for the presence of the coronavirus 2019-nCoV and he could participate in trainings and competitions exclusively after presenting negative result of the test performed at his cost for COVID19 with genetic method, PCR technique the test result should be sent to the managing entity for review at the latest by the moment of the reporting the composition of team to the referee of the competitions by regulations (until the moment of reviewing the result of test by the managing team, as well as the mechanic or person from the rider's team have no right to enter the pits zone); obligation of tests has no application in the event

when the rider (also mechanics or persons from the rider's team) underwent the same week tests referred to in point 11,

13. informing the managing entity on the planned leave of the rider (including also the mechanics or persons from the team of the riders) abroad (the obligation to pass information about the planned leave does not refer the leave to the competitions in which the rider is to start in accordance with the FIM, FIME and international leagues calendar); in case of failing to fulfill the obligation referred to in the preceding sentence, the rider (also mechanic or person from the team of rider) will be additionally, irrespective of the necessity to conduct the test, referred to in point 11, referred to 14 day home isolation and will be able to participate in trainings and competitions after its completion and also after presenting a negative result of the test performed at his cost for COVID19 with genetic method, PCR technique.
14. comply with the sanitary recommendations in trips abroad to the competitions in accordance with Attachment number 2.

**The obligations for other persons (both delegated for the service of the competitions or the trainings by the club and by the managing entity) participating in the competitions:**

1. complying with the provisions of these regulations and recommendations of state authorities concerning staying in public places,
2. providing upon demand of the managing entity or the club the place of stay in Poland during the season,
3. staying in the indicated place in Poland during the obligatory quarantine until performing test for the presence of coronavirus,
4. transferring to the club and the managing entity immediately the information on referring to the quarantine or isolation by the proper sanitary authorities,
5. subordinating to the order to be referred to home isolation by the managing entity,
6. subordinating to the order to be referred to tests for the presence of coronavirus by the managing entity,
7. everyday until recall, sending to the managing entity and the club by means of the Sanitary Commissioner the form of medical assessment in connection with a risk of being infected with a coronavirus 2019-nCoV,
8. refraining between the meetings and trainings from any activities in large groups of persons which is favorable for contact with coronavirus 2019-nCoV.
9. undergoing cyclical tests for the presence of coronavirus 2019-nCoV (from Wednesday 29.07.2020 every two weeks) – at the cost of the club (at the cost of the managing entity in case of persons officially delegated by the entity) with genetic method, PCR technique,
10. in case of each trip of the rider (also mechanics or persons from the rider's team) from Poland including for the competitions, during the season, after the return the rider (also mechanics or persons from the rider's team) must at the earliest on Wednesday and at the latest on 48 hours before the competitions of PGE Ekstraliga undergo the tests for the

presence of the coronavirus 2019-nCoV and he could participate in trainings and competitions exclusively after presenting negative result of the test performed at his cost for COVID19 with genetic method, PCR technique– the test result should be sent to the managing entity for review at the latest by the moment of the reporting the composition of team to the referee of the competitions by regulations (until the moment of reviewing the result of test by the managing team, as well as the mechanic or person from the rider's team have no right to enter the pits zone); obligation of tests has no application in the event when the rider (also mechanics or persons from the rider's team) underwent the same week tests referred to in point 9,

11. Informing the managing entity about the planned leave abroad (obligation to inform about the leave does not refer to the leaves for the competitions, in which the referee is to fulfill the functions in accordance with the FIM, FIME calendar); in case of failing to fulfill the obligation referred to in the preceding sentence, the person will be additionally, irrespective of the necessity to conduct the test, referred to in point 9, referred to a 14 day home isolation and could participate in trainings and competition after its completion also after presenting a negative test result performed at his cost for COVID19 genetic method, PCR technique. – the test result should be sent to the entity managing for review at the latest until the moment of commencing to fulfill the function at the trainings or the competitions (until reviewing the test result by the managing entity the person has not right of access to the pits and paddock zone),

#### **Principles concerning third parties:**

1. persons constituting the medical security are equipped and conduct by the applicable state provisions,
2. producer of the signal and editors and subcontractors of TV conduct by their own safety protocols with a reservation that in the pits zone operate by the provisions of these regulations.

#### **Consequences of failing to comply with the guidelines of epidemiological safety:**

Failure to comply with the orders and instructions of the managing entity by the rider and every other persons, as well as failure to comply with the regulations and in particular failing to comply with the principles of quarantine and obligation to send the form of medical assessment in connection with the risk of being infected with the coronavirus 2019-nCoV, the lack of valid negative test for COVID19 with genetic method, PCR technique shall result in withdrawing by the managing entity the consent for the rider and every other person for participating the in competitions until repeated passing the procedure of quarantine and test performed at his own cost, as well as in justified cases referring the case for disciplinary procedure.

#### **Procedure in case of obtaining positive test for COVID 19:**

1. In case of ordering to perform tests for COVID19 by the Club in its text as a recipient of test results there should be only: Sanitary Coordinator of the managing entity ([sanitarny@speedwayekstraliga.pl](mailto:sanitarny@speedwayekstraliga.pl)), KdS (proper address of electronic mail) and the managing entity ([dokumenty@speedwayekstraliga.pl](mailto:dokumenty@speedwayekstraliga.pl)).
2. KdS sends the result test to the address: [sanitarny@speedwayekstraliga.pl](mailto:sanitarny@speedwayekstraliga.pl) and the managing entity to the address: [dokumenty@speedwayekstraliga.pl](mailto:dokumenty@speedwayekstraliga.pl) in encoded ZIP file. The managing entity may establish another manner to transfer the test results about which it will notify the clubs in proper correspondence.
3. In case of positive test results for COVID19 the managing entity notifies immediately the proper Sanitary Epidemiological Station sending at the same time the notification to the Club.
4. The only entitled entity to issue the public messages for the media concerning test results for COVID19 conducted in PGE Ekstraliga is exclusively the managing entity.
5. The Club is not entitled to issue any public messages concerning test results without the consent of the managing entity.
6. The Club is obliged to introduce internal procedures of circulation of information so that the dysponent of the test result could assure confidentiality of the data.
7. Disclosing the test result for COVID19 or presuming the disclosure of test results by the Club in each case shall result in instituting disciplinary procedure towards the Club in accordance with the Disciplinary Regulations of PZM.

#### **Sanitary Commissioner:**

1. Sanitary Commissioner (KdS) is appointed by the Club – organiser of trainings or competitions.
2. The person performing the function of KdS should possess basic knowledge on sanitary prophylaxis and procedure in the condition of epidemics by the guidelines of the Minister of Health and Chief Sanitary Inspector.
3. KdS should be present in the facility for the whole duration of the meetings and before the meetings (no later than 6 hours before) and such time after the meetings which is necessary to fulfill all obligations.
4. KdS should be present in the facility for the whole duration of trainings organised by the club and before the training (no later than 2 hours before).
5. KdS shall fulfill his obligations in accordance with the provisions of these regulations.
6. KdS has the right to pay attention and give orders to all persons placed in the areas of the stadium resulting from the provisions of these regulations.
7. The obligations and rights of KdS include in particular:
  - 1) control of places of residence of riders, mechanics and persons from the training team for proper compliance with the sanitary orders,
  - 2) coordination of sending by the riders their mechanics and members of the training team the forms of medical assessment,

- 3) supervision over the riders and mechanics being under quarantine,
  - 4) informing all persons present at the training and competitions on the methods of safe putting on and taking off the gloves and protective masks,
  - 5) control of staying in particular zones only authorised persons,
  - 6) control of equipping the zones with protective means before the training and competitions in accordance with these regulations,
  - 7) current supervision over the equipment and conduct of the persons in the scope of sanitary issues in all zones during the training and competitions,
  - 8) reporting to the referee of the competitions the persons who do not comply with his orders in the scope of complying with the regulations and in gross negligence cases applying for removing him from the stadium.
  - 9) reporting (completing or confirming the post-match list) of any discrepancies of the persons entitled to stay in the pits sent before a given match with the persons authorised to actually staying in the pits during competitions.
8. The managing entity may order to KdS other obligations to be performed in the scope connected with sanitary regime.

#### **Rights and obligations of the Sanitary Commissioner:**

1. conducting and supervision over checking the temperature of the persons entering the pits,
2. reporting the deviations to the managing entity,

#### **Masks and visors:**

1. masks must be put on so as to cover tight the nose and mouths,
2. in cases listed in the regulations one may interchangeably used visors; the visor must be mounted on the head covering the whole face from the forehead to the beard included.

#### **Trainings organized by the clubs:**

For the whole duration of competitions, in the scope of trainings organized by the clubs, the following principles are absolutely applicable:

1. it is absolutely prohibited to use the cloakroom in the scope of changing room and bath – the prohibition refers to all participants: riders, mechanics and all other persons participating in the organization of the training in any way,
2. toilets in the cloakrooms may be made available for usage under the condition of their fencing in the manner preventing from the access to changing rooms and showers,
3. all rooms – including toilets – used during the training must be disinfected before and after the training,
4. all rooms used during the training must be equipped with:
  - containers with disinfectant,
  - rubbish bins,
  - containers with liquid soap (refers to toilets),
  - disposable towels (refers to toilets),
5. each rider comes to the training with his mechanics in one vehicle with the equipment, not more than three persons in the vehicle,
6. the equipment of a given rider must be transported separately from the equipment of other riders,
7. before leaving the place of accommodation, the rider and the mechanic put on gloves and masks and equipped in that way get into the vehicle,
8. after coming to the stadium the rider changes in his own bus into the regulation clothes, mask / visors and protective gloves,
9. after coming to the stadium the mechanic changes in the clothes of the team and puts on mask / visors and protective gloves,
10. for the whole training all persons work obligatory in masks / visors and protective gloves,
11. keeping distance of 2 meters in each zone during the training – does not refer to the situations connected with performing the professional activities, e.g. between the riders on the track, between the mechanic and the rider in the situation at the equipment, etc. as well  
as entrance of the mechanics to the track, during the improvement of the equipment before the race, or the transport of a motor after the fall,
12. promoting and using the preventive methods: frequent washing hands or disinfecting hands, keeping distance,
13. prohibition to organize trainings in any form with riders from other clubs,
14. right for temporary stay in a given zone means that the person may stay in the zone only during performing obligations resulting from the existing event during the competitions and then returns to the zone in which he performs his obligations – the persons staying in a given zone temporary are not included into maximum capacity of a given zone.
15. from the moment of coming of the first rider participating in the training for the whole duration and leaving the machine park by the last rider participating in the training, in the machine park there can be exclusively persons staying with a negative result of test for COVID19 with genetic method, technique PCR. Current list of persons is conducted by the sanitary coordinator of SE.

Zones for trainings:

1. Zone of pits and paddock.
2. Zone of track and infield and safety zone.
3. Zone of technical park.
4. Zone of tribunes.

*1. Zone of pits and paddock.*

Access to the zone is limited maximum up to 50 persons, including, i.a.:

riders of the club taking part in the training,  
mechanics of the riders taking part in the training,  
coach,  
physical therapist,  
Sanitary Commissioner,  
electrician,  
service of pits gate (1 person),  
service of methanol (1 person),  
club mechanic (1 person),  
and temporary:  
Doctor or paramedic,  
club photo reporter.

At the entrance to the pits each person entering the zone must be subject to the examination of body temperature.

At each entrance to the zone of pits and paddock there will be 2 containers with disinfectant. Each person moving between the zones disinfects the hands with disinfectant.

Separated posts for the riders must be placed in the distance of at least 2 meters from each other.

Each post of the rider must be equipped with the container with disinfectant, rubbish bin and disposable face towels.

Rider and his team – mechanics – during the training and competitions they stay together in an individual box with distance of 2 m from their teams.

The bikes used during the training must be disinfected before and after the training.

The tools used by mechanics and riders must be disinfected before and after the training.

Obligatory methanol refueling procedure:

- 1) mechanic – keeping the distance from other participants – brings the bike and unscrews the tank cap,
- 2) the person servicing the post of methanol pours the fuel, 3) mechanic turns off the tank and goes with the bike to his box.

Mechanics and riders are prohibited to pour methanol on their own During tanking, at the post for tanking there can be only 2 persons placed.

In medical office during the review or providing first aid there can be only medics staying and the person injured.

In the workshop room there can be 2 persons staying maximum.

### *2. Zone of track and infield and safety zone.*

During the trainings on the speedway track and inside the track the following can be placed:

up to four riders at the same time,  
service of starting gate (2 persons),  
coaches,  
doctor or paramedic  
and temporary:  
Sanitary Commissioner,  
club photo reporter.

The persons staying inside the track keep the distance of 2m from each other.

### *3. Zone of technical park.*

The zone of technical park is used for location of machines used for maintenance of the track and the ambulances of medical security for the training.

The persons authorized to stay in the zone of technical park:

Track marshal,  
Tractor driver,  
Water tanker driver,  
Ambulance crews,  
and temporarily:

Sanitary Commissioner.

The zone of technical park must be equipped with a container with disinfectant and bin.

The persons constituting medical security for the training have the right to enter the track and to the pits for providing necessary medical aid for the rider who was subject to an accident during the training.

Medical services will be equipped with means of individual protection defined in the guidelines for the medical rescue during epidemics, minimum a mask and protective gloves.

The remaining persons performing their obligations in the zone:

1. have no access to other zones except for the entering onto the track in maintenance vehicles of the track or for repairing safety fence around the track,
2. must be equipped with masks and protective gloves,
3. enter the stadium with a separate entrance and have an obligation of hands disinfection with disinfectant,
4. keep distance of 2 m from each other.

In case of changing the vehicle driver – tractor or water tanker, the driver before getting into the vehicle has the obligation to disinfect hands with disinfectant.

#### 4. *Zone of tribunes.*

The persons authorized to stay in a separated zone for the press in the zone of tribunes:

Journalists/photo reporters – up to 5 persons (up to 20 persons in case of meetings with the participation of the public).

Separated zone for the press will be subject to restrictions defined below:

1. each place for the press will be separated from each other by at least 2 m,
2. the persons staying in the zone have no access to other zones during the competitions,
3. the persons performing their obligations in the zone will be supplied with the masks and protective gloves,
4. the persons performing their obligations in the zone enter the stadium with a separated entrance at which they will be obliged to disinfect hands with disinfectant.

### **Persons crossing zones during training:**

In case of special circumstances, few functional persons appointed may have the necessity to move temporarily to another zone due to the nature of the obligations performed or for reaction to the event during the training.

The persons authorized to move between the zones:

1. Sanitary Commissioner:
  - Zone of pits and paddock,
  - Zone of track and infield and safety zone, - Zone of technical park.
2. functional persons from technical park:
  - Zone of track and infield and safety zone – exclusively in the maintenance vehicles of the track or for repairing the safety fence around the track.
3. ambulance of medical security exclusively in case of necessity of medical provision of riders:
  - Zone of track and infield and safety zone,
  - Zone of pits and paddock.

### **Meetings:**

The meetings may take place with participation of the public, in limited number, in accordance with the state provisions.

Each meeting will be serviced by the team necessary for the service reported to SE, trained in sanitary regime and equipped with basic means of personal protection by the organiser's club.

For the duration of the meeting, in the facility there will be non-crossing zones appointed.

For the whole duration of the meetings, the following principles are obligatory:

1. using the cloakroom is absolutely prohibited in the scope of changing room and bath – the prohibition refers to all participants: riders, team members, officials and functional persons and all other persons in any manner participating in the organization of competitions,
2. toilets in the cloakrooms may be made available for usage under the condition of their fencing in the manner preventing from the access to changing rooms and showers,
3. all rooms – including toilets – used during the meeting must be disinfected before and after the meeting,
4. all rooms used during the meeting must be equipped with:

- containers with disinfectant,
  - rubbish bins,
  - containers with liquid soap (refers to toilets),
  - disposable towels (refers to toilets),
5. due to limitation of the persons in the zones, the rider is entitled to two mechanics,
  6. each rider comes to the meeting with his mechanics in one vehicle with the equipment, not more than three persons in the vehicle, the entrance to the facility exclusively for the persons coming with their own vehicle, are prohibited to the members of guests and hosts are not slowed to come individually to the facility, outside the vehicle,
  7. the equipment of a given rider must be transported separately from the equipment of other riders,
  8. before leaving the place of accommodation, the rider and the mechanics put on masks and protective gloves and they enter the vehicle in this way,
  9. after coming to the stadium the rider changes in his own bus into the regulation clothes, mask / visors and protective gloves,
  10. after coming to the stadium the mechanic changes in the clothes of the team and puts on mask / visors and protective gloves,
  11. for the whole meeting all persons work obligatory in masks / visors and protective gloves,
  12. each member of the training staff and each functional person come to the place of accommodation with his own transport,
  13. before leaving the place of accommodation each person from the training team and each functional person puts on mask and protective gloves and equipped that way gets into the vehicle,
  14. after coming to the stadium, each member of the training team and each functional person puts on mask and protective gloves,
  15. after coming to the stadium, at the entrance each person is granted the ID on the basis of the name list sent by the team of the guests and the television by means of SE – the organiser is entitled to identify the persons coming for confirming the identity,
  16. it is forbidden for riders to go to the track after the end of the meeting,
  17. keeping the distance of 2 meters in each zone during the meeting – does not refer to the situations connected with performing the professional activities, e.g. between the riders on the track, between a mechanic and the rider at the equipment, etc. as well as entering the mechanics onto the track, during the correcting the equipment before the race or transport of the motorcycle after the fall,
  18. promoting and using the preventive principles: frequent washing hands or disinfecting hands, keeping the distance,
  19. right for temporary stay in a given zone means that the person may stay in the zone only during performing obligations resulting from the existing event during the competitions and then returns to the zone in which he performs his obligations – the persons staying in a given zone temporary are not included into maximum capacity of a given zone.

## DIVISION OF THE STADIUM INTO ZONES

For the duration of the meeting the speedway facility is divided into zones. Due to its specificity, the facility may have separated independent zones, in which there will be no more persons gathers at a time than 150 persons – does not refer to the zone of tribunes or the zone of broadcasting vehicles.

### Zones for meetings:

1. Zone of pits and paddock (min. 1000 m<sup>2</sup>) – up to **76** persons.
2. Zone of track and infield and safety zone (min. 12000 m<sup>2</sup>) – up to 20 persons.
3. Zone of referee tower – up to 20 persons.
4. Zone of technical park – up to 30 persons.
5. Zone of tribunes – up to 30 persons connected with the meeting organisation.
6. Zone of broadcasting vehicles – up to 40 persons.

#### *1. Zone of pits and paddocks.*

Zone of pits and paddock constitutes the car park for the buses of riders/mechanics and training teams and is the place where during the competitions the riders stay, training teams and the functional persons for the technical service of the meetings. Access to the zone is limited to the close circle of persons – not more than **76** including:

Clerk of the Course,  
Track commissioner,  
Chief pits marshal,  
Head of the host team,  
Coach of the host team,  
manager of host team,  
physical therapist of host team,  
Head of guest team,  
Coach of guest team,  
manager of guest team,  
physical therapist of guest team,  
Doctor of guest team,  
Sanitary Commissioner,  
Service of the pits gate (1 person),  
Service of methanol (1 person + 1 person in the case of using the fuel suction procedure),  
Riders of the host (8 person),  
Teams of the host (16 persons),

Riders of the guest (8 persons),  
Teams of the guest (16 persons),  
TV realization (4 persons + **3 persons in meetings for medals of Polish Team Championship**),  
Representative of the organiser club/president of the management board of the organizer club, President of the management board of the club of guest team,  
Technical Steward,  
**Machine Examiner**,  
service of telemetry (1 person),  
And temporarily:  
Referee,  
Assistant Referee,  
Doctor,  
Ambulance crews,  
Photo reporter,  
Secretary of the meetings,  
Jury President / SE Delegate,  
service of telemetry (2 persons)

At the entrance to the pits each person entering the zone must be subject to temperature measurement.

At each entrance to the pits there will be 2 containers placed with disinfectant. Each person moving between the zones disinfects hands with disinfectant.

Separated posts for riders must be placed in distances of at least 2 meters from each other.

Separated zones of teams must be separated permanently from each other.

Each post for the rider must be equipped with a container with disinfectant, rubbish bin and disposable face towels.

Rider and his team - mechanics – during the training and the competitions they stay together in an individual box with keeping the distance of 2 m from other teams.

The bikes used during the meeting must be disinfected before and after the training.

The necessary tools used by the mechanics and riders must be disinfected before and after the training.

During the sessions of the coach with riders, there must be distance kept of 2 m between the participants of the session.

On the platforms for viewing the meeting, the riders the persons placed there must keep the distance of 2 m from each other.

In case of using separate parts of the tribunes for watching the competitions, at the tunnel of the pits, there must be two zones prepared on the opposite parts of the tunnel (one for each team) each of them must have the area of minimum 24 m<sup>2</sup>, in each of them there can be at the same time not more than 6 persons from each team. Additionally on both sides of the pits there must be a min. 10 meter buffer zone indicated covering the zone of tribunes, preventing from the access and moving around in the zone of viewers and unauthorized persons.

The phone box must be equipped with a container with disinfectant.

In the phone box there can be only person staying and only during the phone call. After entering the phone box each person must disinfect hands. During phone calls the box must be open.

Obligatory methanol refueling procedure:

1. mechanic – keeping the distance from other participants – brings the bikes and unscrews the tank cap,
2. the person servicing the post of methanol pours the fuel,
3. mechanic turns off the tank and goes with the bike to his box.

Obligatory methanol refueling procedure when using fuel suction:

1. mechanic – keeping the distance from other participants – brings the bikes and unscrews the tank cap,
2. the person operating the suction station drains the fuel residue from the tank,
3. the person servicing the post of methanol pours the fuel,
4. mechanic tightens the tank and goes with the bike to the lining-up zone prior to the heat.

Mechanics and riders are prohibited to pour methanol on their own. During tanking, at the tanking post there can be 2 persons in total staying.

The race office may not be placed in the room in the club generally accessible building except for indicated zones. In such a case one should agree with SE alternative place for race office in the zone of pits and paddock or referee tower.

For 6 hours before the competitions and for the whole duration of the competitions in the zone of pits and paddock there can be exclusively persons staying with negative test result for COVID19 with genetic method, technique PCR. Current list of persons is conducted by the sanitary coordinator SE.

For 6 hours before the competitions, using the sanitary provisions of the regulations, the access to the zone of pits and paddock is allowed for the officials of the PZM/SE, functional persons of the competitions' organizer, functional persons of teams and TV service. The riders of both teams and their teams have access for 3 hours before competitions.

In the race office there can be maximum four persons (five persons if the Competition Jury is appointed): referee of the meeting, Clerk of the Course, heads of teams, Jury President. These persons must have masks on and protective gloves. If the area of the race office allows for that, the distance of 2 m should be kept between persons.
